OVERVIEW

David Fern, founder and medical director of Vein & Skin Laser Center, has been involved in the treatment of skin diseases, skin cancer, melanoma, breast cancer and vein surgery for 30 years. His training and experience in general, cancer and trauma surgery has required that he be proficient in the diagnosis and treatment of vascular and skin diseases and injuries. His patients use the words caring, skilled and kind. "I was extremely impressed with the results. Dr. Fern is caring and extremely skilled. His staff is really the best I've seen in the city." Come in and experience for yourself the high level of patient satisfaction that Dr. Fern's patients enjoy.
